MARRIAGE, HAPPINESS AND COMPETENCE.

WHY IS IT?

That we behold usury females, scarce in the meridian of life broken in health and spirits with a complication of diseases and ailments, depriving them of the power for the enjoyment of life at an age when physical health, buoyancy of spirits, and larpay serenity of unind, arising from a condition of health, should be predominant.

Many of the causes of her sufferings at first—perhaps years before, perhaps during girlhood, or the first years of marriage—were in their origin so light as to pass unnoticed, and of course neglected.

IN A LATRICE YEARS.

IN AFTER YEARS, When too late to be benefitted by our knowledge, we look back and mourn, and regret the full consequences of our

ignorance. What would we not often give to possess, in early life, the knowledge we obtain in after years! And what days and nights of auguish we might not have been spared, if the knowledge was timely possessed. It is MELANCHOLY AND STARTLING To behold the sickness and suffering endored by many a wife

for many years, from causes simple and control remedied—or better still,—not incurred, if every

Possessed the information contained in a little volume, (with in the reach of all) which would spare to herself YEARS OF MISERY, And to her husband the constant toil and anxiety of mind, necessarily devolving upon him from sickness of the wife-without giving him the opportunity of acquiring that competence which his exertions are entitled, and the possession of which would secure the happiness of himself, wife, and SECURE THE MEANS OF HAPPINESS By becoming in time possessed of the knowledge, the want of which has caused the sickness and poverty of thousands. of which has caused the sickness and poverty of thousands. In view of such consequences, no wife or mother is exten-sable if she neglect to avail herself of that knowledge in respect to herself, which would spare her much suffering, be the means of happiness and prosperity to her husband, and confer upon her children that blessing above all price—healthy bodies, with healthy minds. That knowledge is contained in a little work entitled
